Volunteer Continuum

Developed by Peggy Hoffman, this volunteer continuum illustrates different ways volunteers engage. Consider all of the unofficial ways members contribute at each point along the way. Remember to consider the micro-interactions that happen on social media sites, individual blogs, and other digital backchannels that may or may not be managed by your association.

- *WHAT is an example of guerrilla volunteering that makes your association uncomfortable?*

- *WHO are the guerrilla volunteers who are involved?*

- *WHERE are your guerrilla volunteers conducting their activities? Consider both online and offline.*

- *WHY would the volunteer choose the guerrilla path, rather than an official path?*

- *WHAT benefit does the guerrilla volunteer's work provide to other members?*

- *HOW might your organization create space for your guerrilla volunteer's contributions?*

Please ask permission to share and give credit to the presenters.
